## PAPER TYPES:

### » Standard

Our standard paper has a satin, semi-matte appearance. This book has a magazine-style binding.

### » Linen

Perfect for artistic work, linen paper offers a hand-woven appearance to your coffee table book pages.

### » Matte

Our matte paper is thicker than our standard paper. The smooth feel of these pages lends itself to softening colors and textures.

### » Lay-Flat

Lay-flat paper is an innovative way to increase the viewing area of coffee table books. The paper has a hinged edge, allowing it to lay flat when the book is open.

### » Lay-Flat UV Coated

Thicker than our standard lay-flat paper, lay-flat UV coated pages will give your book a metallic appearance. The thick, glossy UV coated paper is our most durable option.
